AMAZON BASE BUILDING COMPLIANCE STANDARD

Task Title	Cardboard and Plastic balers
APM Object	CT.WORK.BALER
APM Description	Cardboard and plastic and other waste balers.
General tasks always required	Follow safety procedures - e.g. 1MRA, LOTO, PPE, etc. Ensure that all WOs are carried out by qualified, certified staff with appropriate familiarisation and supervision as required Add notes for each observation and create a FWO if necessary to eliminate defects Use appropriate tools, chemicals and industry standard practices (RME policy permitting) Ensure relevant logs, readings and certification is uploaded to APM prior to WO closure. CT evidence must be additionally uploaded to the DMS (WorkDocs in DE) To suggest improvements please raise a SIM or contact document authors Leonardo Vitale (LEOVITAL) Rob Gisby (EWARTGXR) or APM, Benito Sanchez Sanchez de Puerta (BPPUERTA) SIM - Link to SIM template

Last Update: (Version)	ago-23	**Last Update Change Detail:**	Transfer to new template. Rationalisation of EU RME Minimum standards. Alignment with dependant PM. Released as Draft.	**Activities may be covered by No-Go restrictions:**	Yes	**Special Certification Required:**	**Delivered By:**
Evidenced part or full by PM:	Not Specified	**Related BBM PM:**	Not Specified	**Related CT Areas:**	Not Specified		

Scope

Any site where cardboard and plastic balers are used to flatten, stack and bind together cardboard boxes and pieces of carboard and plastic so they can be easier to store or dispose of via a recycling or waste facility.

Using this document

This document is intended as a guide and may not be exhaustive. Whilst this document is based extensively on professional guidance and subject to periodic review, individual sites must be diligent to ensure they are aware of, and comply to, local and changing regulations.
The format of these standards is intended to improve navigation between maintenance and compliance standards and to allow frequent, minor updates to a single living resource. Please avoid offline or printed versions and check version dates and change log.
In the event of becoming aware of errors or omissions in this document, sites must provide detail, including references to relevant source information to their local planner for escalation - SIM Link above.
This document is considered released as draft.
For Information contact Authors: R Gisby (ewartgxr), Leonardo Vitale (leovital) and Benito Sanchez Sanchez de Puerta (bppuerta)

Maintenance and Compliance Relationship

Where relevant, associated Base Building PM's are listed on the header . In many cases maintenance contributes to, or fulfils compliance requirement. This may not be exhaustive and is intended to assist users to identify relevant maintenance.
If a BBM Maintenance activity fully meets the compliance requirements below, periodic upload of PM evidence will be required to APM and DMS / Workdays depending on region.

Key to Abbreviations

The key to the below document is as follows:
CT - Amazon compliance / statutory task - not otherwise covered by a BBM Standard PM. Evidence to be provided into APM and DMS upon task closure.
CT* - This is a conditional task based or based on findings from previous inspections. If a frequency is not used, a further appropriate frequency needs to be in either the region, or 'ALL'. Local teams must ensure appropriate frequency.
(CT) - Compliance task which is likely met or exceeded by a CT task in [ALL] and therefore achieved by proxy BUT local site must satisfy themselves that requirements are fully met.
PM - Requirement can demonstrated through appropriate maintenance - Refer to relevant PM Standard
(PM) - Maintenance task which is met or exceeded by a PM task in [ALL] and therefore achieved by proxy BUT local site must satisfy themselves that requirements are fully met including regional / manufacturer requirements.
EVID - Periodic upload of evidence to DMS, for non-CT task lines. For example, evidence of PM completion, certification, licence etc.
EVID* - Conditional requirement to upload evidence at the interval provided
N A R - No Additional Requirement

Required Tasks

Region	Task Index	Task Frequency	Task Requirements	Qualification of Inspector	Records Required	PM	Weekly	Monthly	3 Monthly	6 Monthly	12 Monthly	24 Monthly	Additional
All	1	In accordance with manufacturer's instructions and recommendations.	Regular maintenance of equipment (cleaning, topping-up liquids, etc).	Competent person.	Inspection records, report or certificate. Risk assessment Maintenance logbook			CT*	CT*				
All	2	Based on risk assessment and manufacturer's recommendations, but at least once every 12 months.	Regular inspections to ensure safe use and correct operation (technical characteristics, damage to components, maximum load, etc). If defects are identified, prevent subsequent use through quarantine prior repair or disposal and replacement - do Not use. Report issue	Competent person.	Inspection records, report or certificate. Risk assessment Maintenance logbook						CT		
CZ	8	No additional requirements	Inspection as per [1] and [2].	No additional requirements	CE Declaration of Conformity			(CT)	(CT)		(CT)		
DE	3	Daily, monthly or operating-hours dependant.	Additional inspections possible dependant on plant/equipment type - operating instructions.	Competent person (befähigte Person)	No additional requirements			CT					
DE	4	Inspection every 12 months.	Electrical equipment needs to be inspected according to DGUV Vorschrift 3.	Competent person (befähigte Person)	No additional requirements						CT		

FR	5	Regular inspections to take place at least every 3 months.	Inspections as per [2].	Accredited company.	No additional requirements			CT					
IT	6	No additional requirements	Check technical characteristics	No additional requirements	CE Declaration of Conformity. Maximum working load must be clearly marked. Records to be kept for 3 years.								N A R
ROI	7	No additional requirements	No additional requirements	No additional requirements	Inspection records must be kept for 5 years								N A R
