AMAZON BASE BUILDING COMPLIANCE STANDARD

Task Title	Trailer Jacks					
APM Object	CT.WORK.TRAILER					
APM Description	Trailer jacks.					
General tasks always required	Follow safety procedures - e.g. 1MRA, LOTO, PPE, etc. Ensure that all WOs are carried out by qualified, certified staff with appropriate familiarisation and supervision as required Add notes for each observation and create a FWO if necessary to eliminate defects Use appropriate tools, chemicals and industry standard practices (RME policy permitting) Ensure relevant logs, readings and certification is uploaded to APM prior to WO closure. CT evidence must be additionally uploaded to the DMS (WorkDocs in DE) To suggest improvements please raise a SIM or contact document authors Leonardo Vitale (LEOVITAL) Rob Gisby (EWARTGXR) or APM, Benito Sanchez Sanchez de Puerta (BPPUERTA) SIM - Link to SIM template					
Last Update: (Version) ago-23	**Last Update Change Detail:** Transfer to new template. Rationalisation of EU RME Minimum standards. Alignment with dependant PM. Released as Draft.	**Activities may be covered by No-Go restrictions:** Yes	**Special Certification Required:**	**Delivered By:**		
Evidenced part or full by PM: Not Specified	**Related BBM PM:** N/A	**Related CT Areas:** Not Specified				

Scope

Any site where trailer jacks are used to aid in the connection/disconnection of trailers from tow vehicles and in maintaining the trailer levelled to avoid unwanted movement of the load. [these are not "jacks" to lift vehicles]

Using this document

This document is intended as a guide and may not be exhaustive. Whilst this document is based extensively on professional guidance and subject to periodic review, individual sites must be diligent to ensure they are aware of, and comply to, local and changing regulations.
The format of these standards is intended to improve navigation between maintenance and compliance standards and to allow frequent, minor updates to a single living resource. Please avoid offline or printed versions and check version dates and change log.
In the event of becoming aware of errors or omissions in this document, sites must provide detail, including references to relevant source information to their local planner for escalation - SIM Link above.
This document is considered released as draft.
For Information contact Authors: R Gisby (ewartgxr), Leonardo Vitale (leovital) and Benito Sanchez Sanchez de Puerta (bppuerta)

Maintenance and Compliance Relationship

Where relevant, associated Base Building PM's are listed on the header . In many cases maintenance contributes to, or fulfils compliance requirement. This may not be exhaustive and is intended to assist users to identify relevant maintenance.
If a BBM Maintenance activity fully meets the compliance requirements below, periodic upload of PM evidence will be required to APM and DMS / Workdays depending on region.

Key to Abbreviations

The key to the below document is as follows:
CT - Amazon compliance / statutory task - not otherwise covered by a BBM Standard PM. Evidence to be provided into APM and DMS upon task closure.
CT* - This is a conditional task based or based on findings from previous inspections. If a frequency is not used, a further appropriate frequency needs to be in either the region, or 'ALL'. Local teams must ensure appropriate frequency.
(CT) - Compliance task which is likely met or exceeded by a CT task in [ALL] and therefore achieved by proxy BUT local site must satisfy themselves that requirements are fully met.
PM - Requirement can demonstrated through appropriate maintenance - Refer to relevant PM Standard
(PM) - Maintenance task which is met or exceeded by a PM task in [ALL] and therefore achieved by proxy BUT local site must satisfy themselves that requirements are fully met including regional / manufacturer requirements.
EVID - Periodic upload of evidence to DMS, for non-CT task lines. For example, evidence of PM completion, certification, licence etc.
EVID* - Conditional requirement to upload evidence at the interval provided
N A R - No Additional Requirement

Required Tasks

Region	Task Index	Task Frequency	Task Requirements	Qualification of Inspector	Records Required	PM	Weekly	Monthly	3 Monthly	6 Monthly	12 Monthly	24 Monthly	Additional
All	1	In accordance with manufacturer's instructions and recommendations.	Regular maintenance of equipment (visual damage, topping-up liquids, cleaning, replacement of parts, etc.).	Competent person.	Maintenance logbook						CT		
All	2	At least every 12 months. More frequent inspections might be required based on risk assessment (use and environment).	Thorough inspection of safety-critical to ensure safe use. If defects are identified, prevent subsequent use through quarantine prior repair or destruction and replacement - do Not use. Report issue	Competent person.	Inspection records, report or certificate Risk assessment						CT		
CZ	7	No additional requirements	No additional requirements	No additional requirements	Planned maintenance programme								NAR
FR	3	Inspection frequency is 6 months.	Inspection as per [2].	No additional requirements	No additional requirements					CT			
IT	4	No additional requirements.	Check maximum tracking effort on the towing hitch (in Newton) as defined by the manufacturer	No additional requirements	CE Declaration of Conformity.						(CT)		

ROI	5	No additional requirements	No additional requirements	No additional requirements	Register of lifting equipment. Records must be kept for 5 years								NAR
UK	6	No additional requirements	No additional requirements	No additional requirements	Planned maintenance programme								NAR
